

## Dear Budding Explorer

The Society of Intrepid Explorers invites all courageous boys and girls to join us on a bold adventure. Your job is to embark on a fabulous journey and explore unknown parts of the world, finally finishing in the Rugby World Cup city of Auckland. Along the way you will be climbing ever-higher mountains, sailing to faraway lands and seeking out strange plant and animal species.

The life of an explorer is full of excitement, danger and adventure! You must be determined, courageous and very hardworking. Whether you want to search for lost jungle cities, brave the icy wastes of the Antarctic or fly above the clouds, you will need to have your wits about you and accept the challenge face to face.

Become the explorer you were always meant to be. Your journey begins in the South African city of Capetown...
